Dr. Watters is very prominent throughout the South as a citizen minister, natural educator and college executive. For a number of years his name has appeared in "Who's Who in America" and "Who's Who in Tennessee", which is only recognition of his unusual ability and successful attainments. He is the author of a number of worthwhile books, a wonderful public speaker, a wise vocational counselor, an efficient manager and a natural leader.

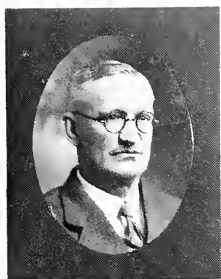

During his administration, Union has experienced one of the most phenomenal growths of any School in the South.

THE CLASSES

SENIORS

ARTHUR WARREN PRINCE, A.M.
JACKSON, TENNESSEE

For a good many years it has been the privilege of the Senior class to have as their sponsor, Dean Prince. Professor Prince is a scholar of unusual ability, and is highly appreciated by the entire class.

Dean Prince took both his A. B. and A. M. degrees at William Jewell College, and since that time has taken graduate work at the University of Chicago. He is a member of the American Chemical Society and has been head of the Science Department at Union since 1908.

Outstanding in every phase of athletics, J. D. has added much to Union's record. Disabled in one of the early football games of the 1928-29 season, he still lent support and inspiration to his team mates, so that they dedicated the biggest game of the season to him and went over the top to victory. J. D. has also shown great ability in his scholastic work, especially as a Spanish Assistant.

If you have seen a little brown-eyed ray of sunshine dancing about over the campus, smiling and greeting everyone cordially, then that is Carol. No one can be blue when she is near. Her bewitching personality has won for her a host of ardent admirers. She is an energetic, enthusiastic force in anything she undertakes.

There's not another like him! Charles is admired and highly respected by both students and faculty and has made an enviable record while in Union. He has made many friends and has succeeded equally as well in his scholastic record. His quiet, reserved, yet pleasing, manner is partially the cause for his social success and he has unexcelled intelligence. His future is not yet permanently planned but there are certain features that will play a most important part in any further arrangements.

Sunny smile, winsome ways and few words, that's Ruth. Her friends on the campus are numerous and she's their friend to the end. At William Woods' she made a place for herself as a star athlete and in Union showed her brilliance by instructing beginners in Latin. She is lovable and lovely, a good student in every type of course, and her dignity added prestige to the Senior class among the entire student body.

The students at Union think of Ed. Miller in terms of chapel singing. His broad smile, and brisk swing would get music out of anyone. He not only sings, but his violin and piano playing also bring great applause. Mr. Skinner is a good student, a religious leader, as well as a great friend.

From the standpoint of games won the 1928 football season for Union Bulldogs was the most unsuccessful in several years. And yet there was a spirit about that '28 gang, they waged such battles against odds, and went down only to rise again in the next engagement to fight all the harder -- all this I say made us love and admire that bunch as much as any Bulldog gang we have ever boosted.

It was a most interesting and colorful team despite the defeats. The best illustration of its spirit was shown in the Western game against the only college team in America yet undefeated. This game, dedicated to J. D. Wright, our crippled speedy halfback, was filled with nerve-wrecking thrills. We saw Stewart to Stewart passes, Fisher line plunges, and that line charge until we took the winning goal, and then held until we won.

THE BASKET BALL TEAM was the best quarter that has ever represented Union. Coach Stewart showed remarkable ability in perfecting his machine and carried it through the first twelve games undefeated. They beat every S. I. A. A. team of any importance in the surrounding territory including the champion Mississippians and the Southwestern runner up. The students revelled in their triumph and it seemed that the team that had defeated Mississippi College, Southwestern, Howard, Millaps, and all the rest was going to the end without testing limit. Nevertheless the team struck bad luck and lost the last four games including the one to Mercer in the S. I. A. A. tournament. Next year's prospects are still brighter for only two from the team graduate.

IN ALL RESPECTS the season was the best ever enjoyed by a Union team. In sixteen games the Bulldogs piled up 360 points to the opponents 469. Also it was the first year that Union has qualified for the S. I. A. A. tournament.

To name an individual star would be a matter of impossibility, for every man deserves the utmost praise as the highest sportsmanship and greatest teamwork was manifest on all occasions.

Those earning letters were Captain Caywood, Higley and Belton, forwards; D. Stewart, center; Sargent, Thomas and R. Stewart, guards.

Much credit is due to those who although failing to play enough quarters to make a letter, yet had a great part in the season's success, namely: Reed, Welch, Peeples, Koonce, and Younger.

A PUPIL'S IDEA OF WHAT IS A CREDITOR

Buying on credit instead of paying cash apparently has its ludicrous side in Prague as in this country.

According to the "*Humoristiche*," a comic weekly printed in Prague, a teacher asked a young pupil, "What is a Creditor?"

The pupil quickly drew from his observation at home and replied: "A man who must be told that my father is not at home."

Paying cash as you go has no attending embarrassments—it assures a life of independence.

You are permitted to buy where you will and where you can get the most in quality and satisfaction for what you pay.
